

The background features a collection of overlapping, colorful speech bubbles in shades of blue, purple, pink, orange, yellow, and green. At the bottom of the image, there is a photograph showing the hands and arms of several people sitting around a table, each using a different electronic device: a laptop, a tablet, a smartphone, and another tablet.

Discussions in e-learning

▶ Principles and Best Practice

Our learning objectives

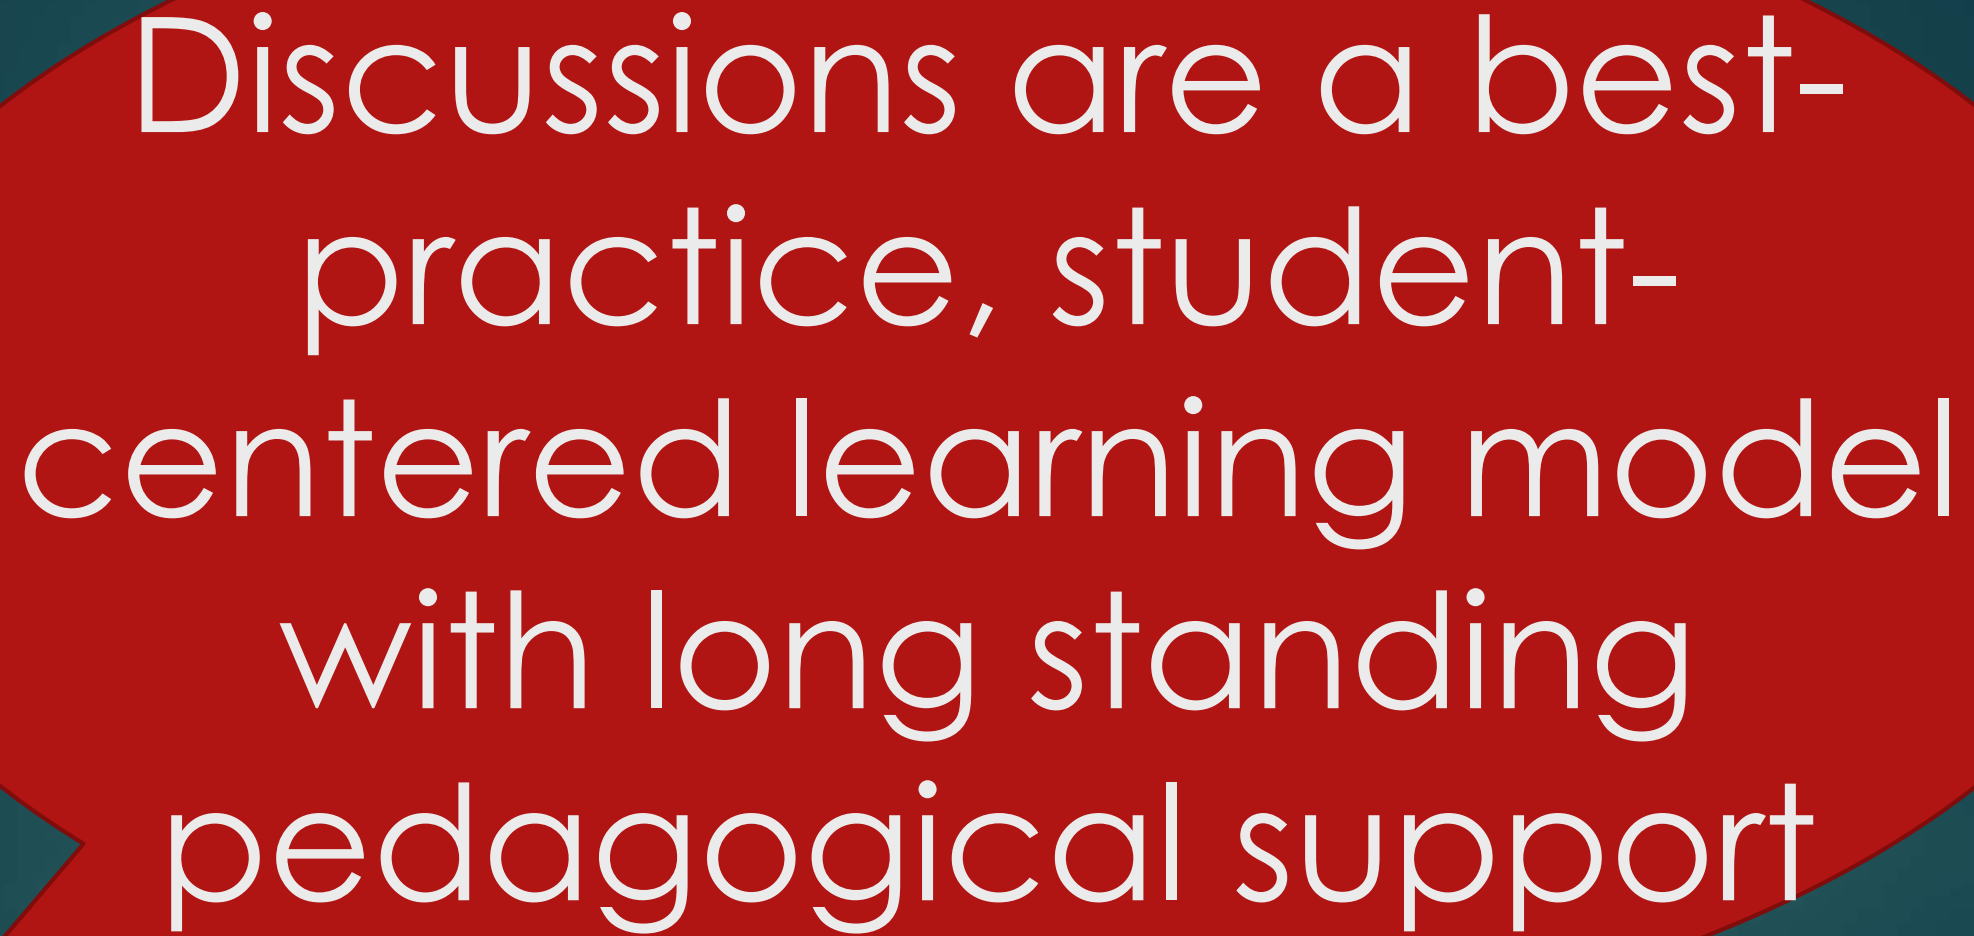

- ▶ Understand best practices for facilitating online learning through discussions
- ▶ Outline:
 - ▶ Understanding Discussions in Learning
 - ▶ Principles and Practices

Understanding Discussions

▶ and their place in learning

Discussions are a best-practice, student-centered learning model with long standing pedagogical support

cooperative
argumentative
dialogue*

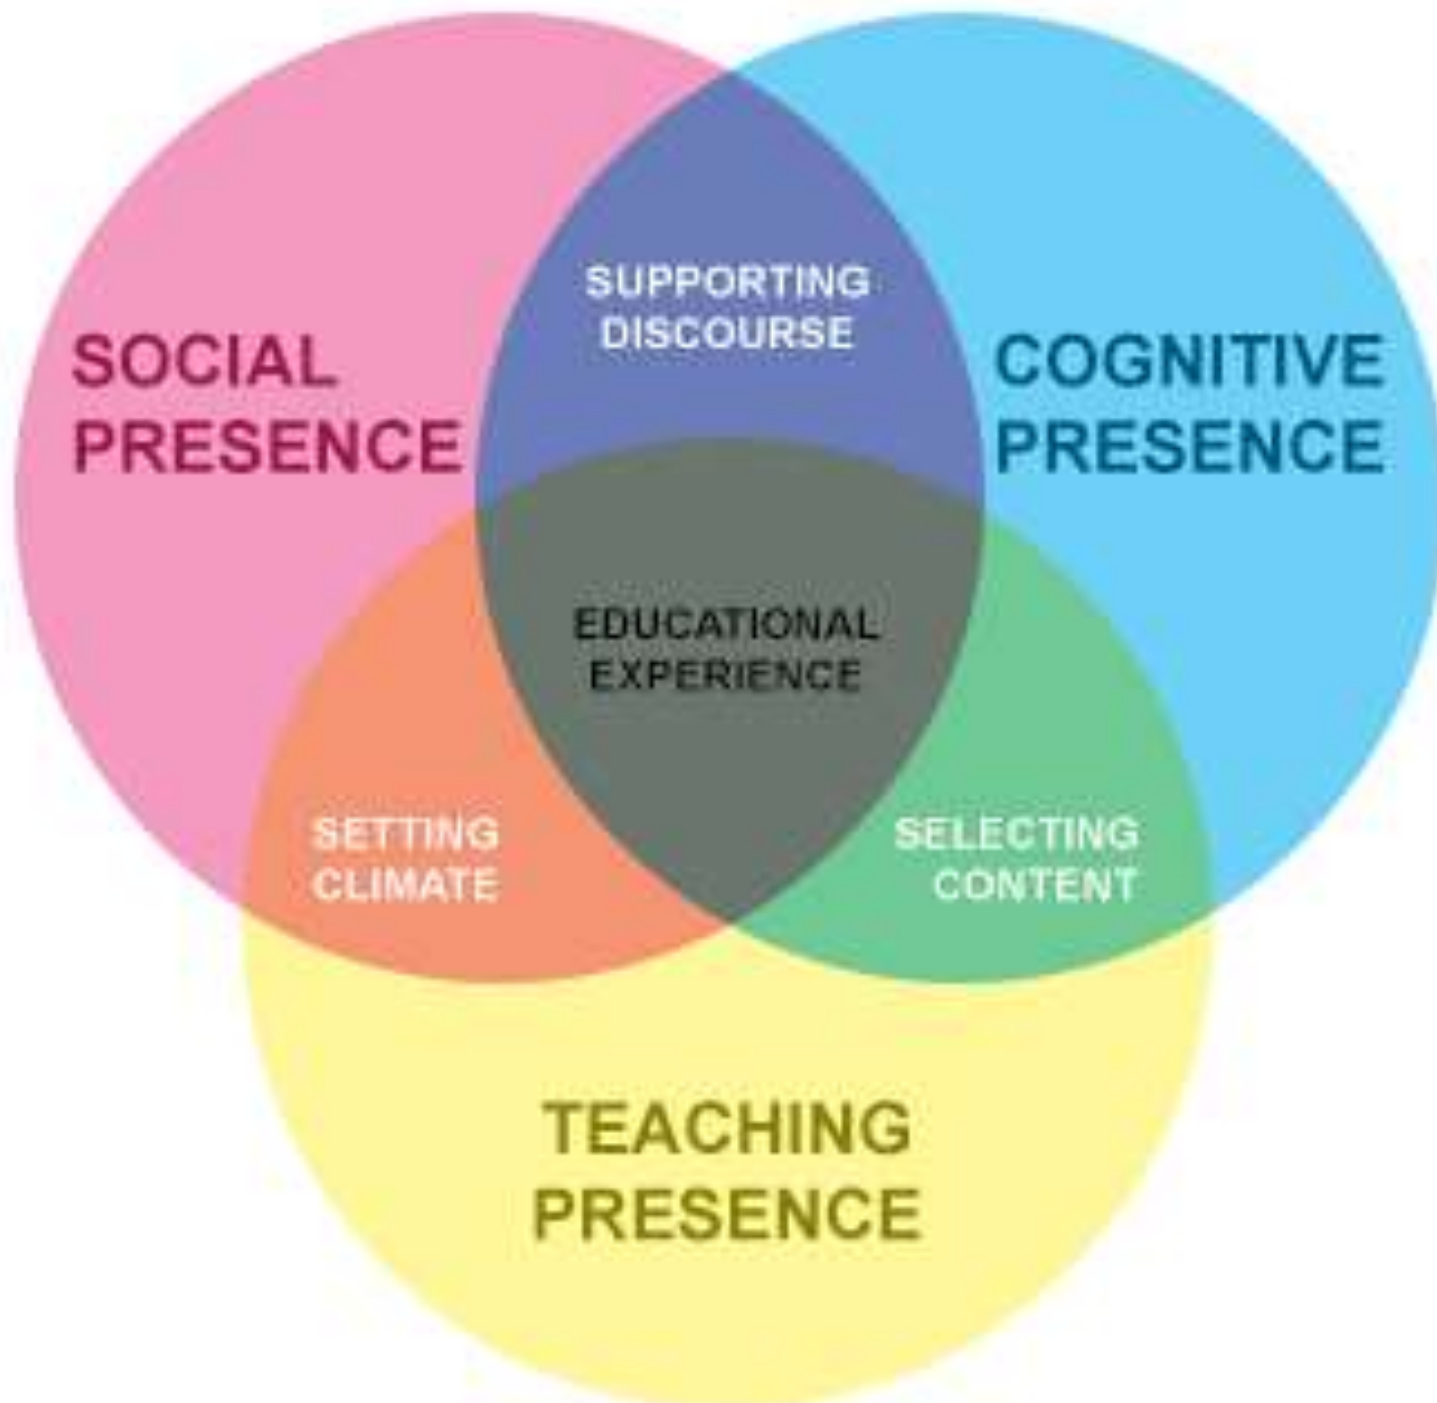

Socratic Method

*(Lumer, 1988)

rooted in
John Dewey's
"Practical
Inquiry" (1938)

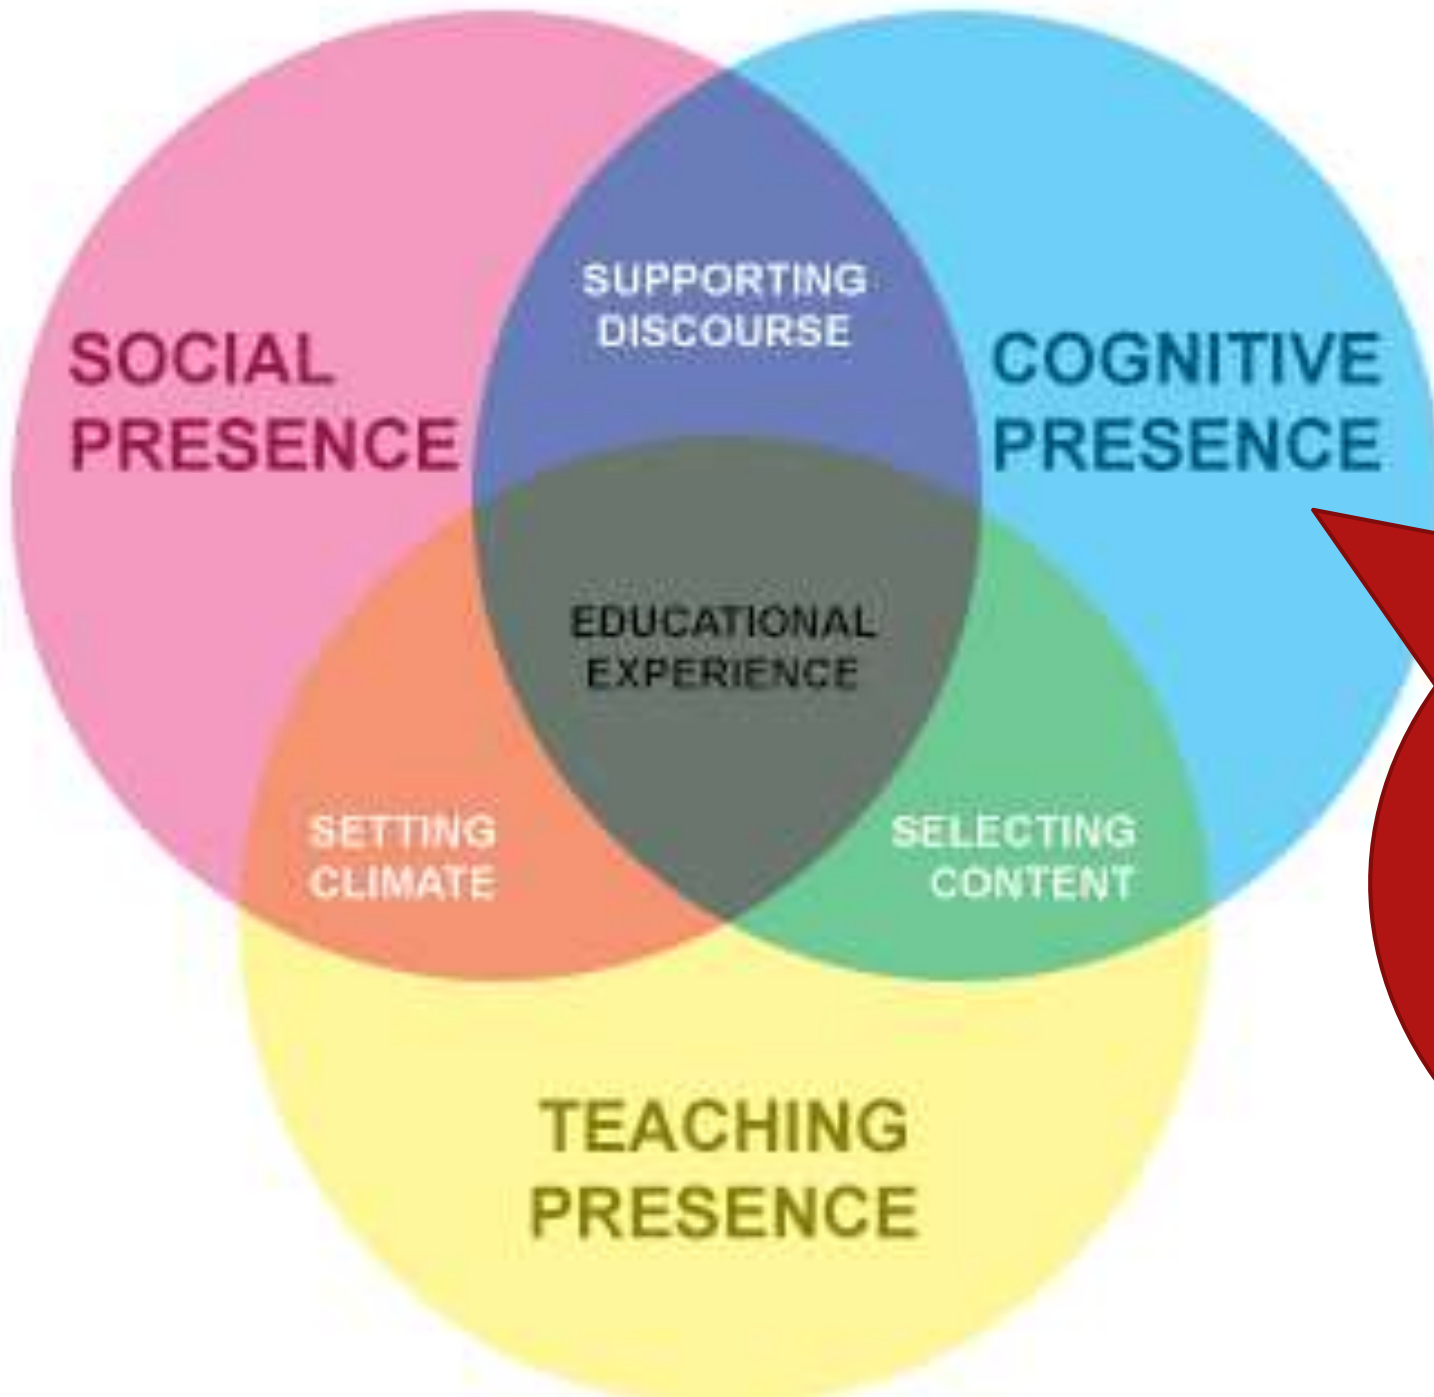

Reflective
practice

Community of Inquiry

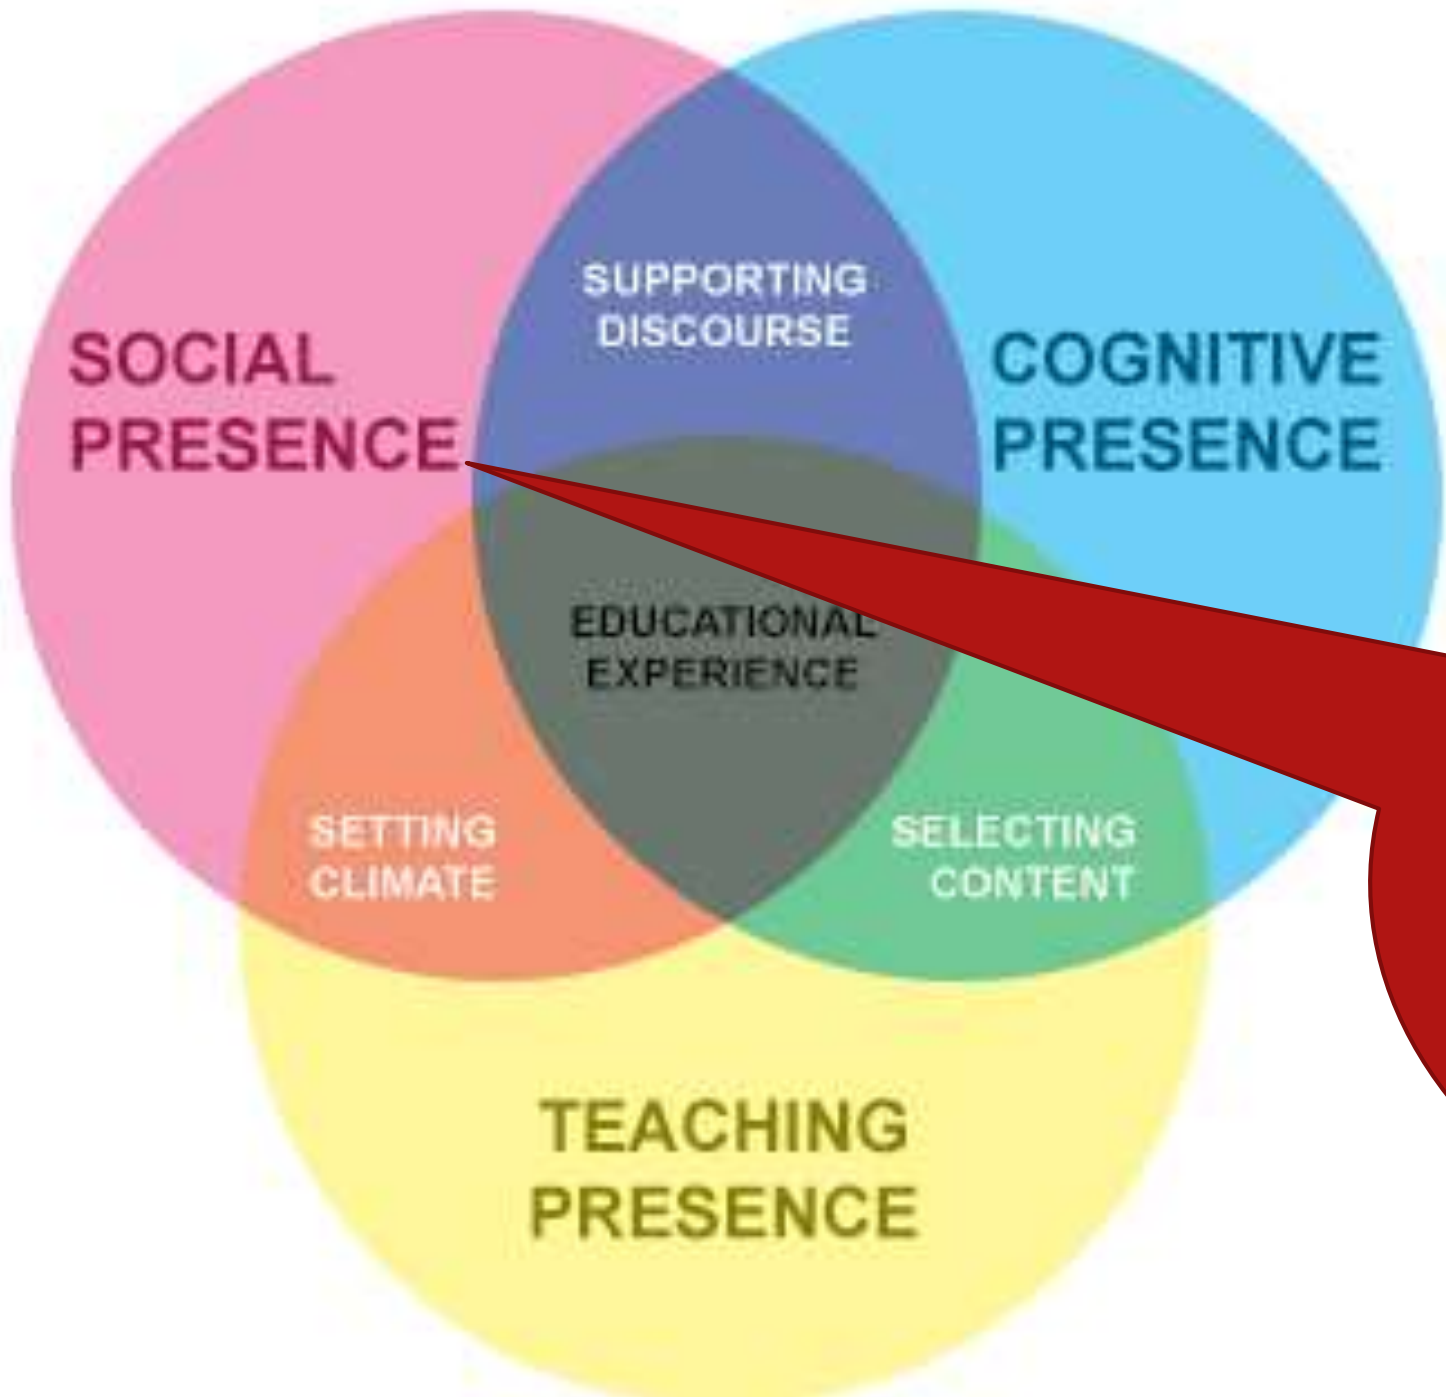

(Garrison, Anderson, & Archer 1999)

Indicators:

Sense of puzzlement
Information exchange
Connecting ideas
Applying new ideas

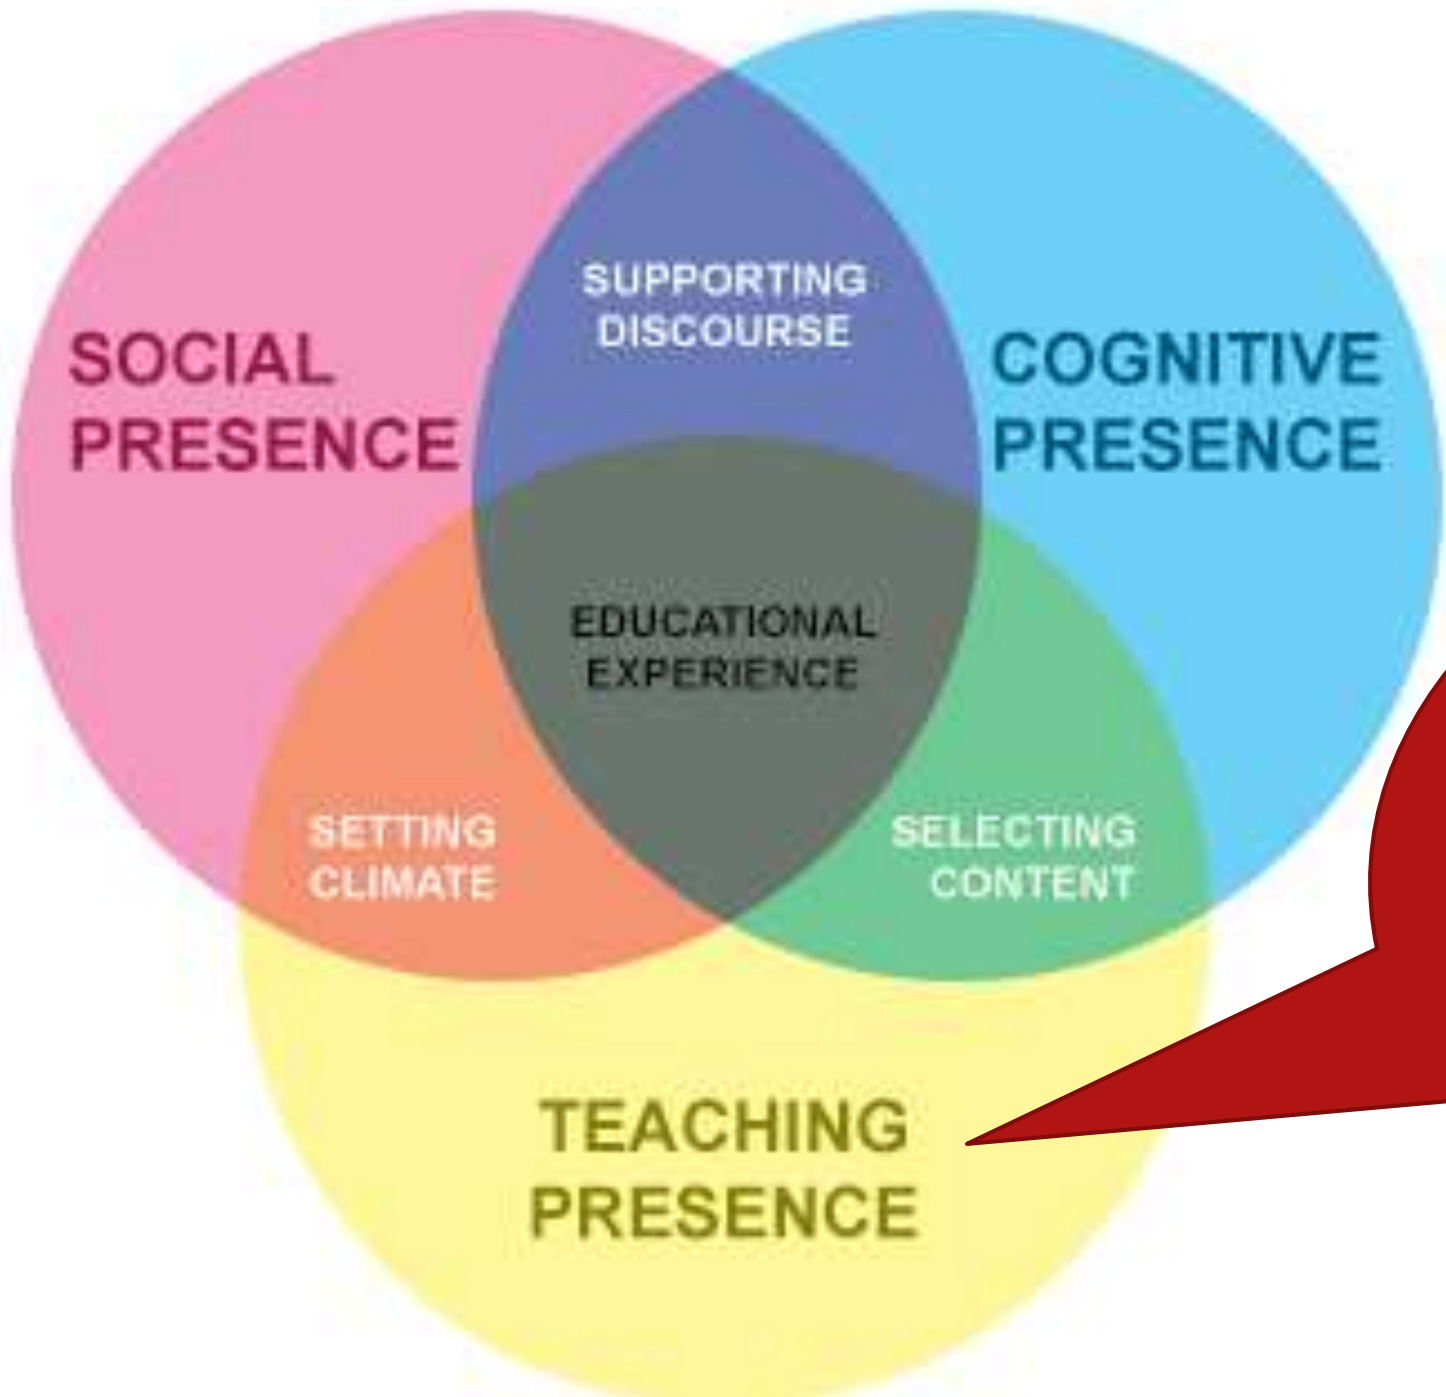

(Garrison, Anderson, & Archer 1999)

Indicators:

Emoticons
Risk-free expression
Encouraging
collaboration

(Garrison, Anderson, & Archer 1999)

Indicators:

Defining & initiating
discussion topics
Sharing personal
meaning
Focusing discussion

(Garrison, Anderson, & Archer 1999)

Goal:
Creating an
engaged
online
learner

As a result of this increased interaction, students understand the concepts to a greater depth, develop a firmer foundation in core competencies, as well as earn a higher grade in the course.

(CRANNEY, WALLACE, ALEXANDER, & ALFANO, 2011)

The background features a collection of overlapping, colorful speech bubbles in shades of blue, purple, pink, orange, yellow, and green. At the bottom of the image, there is a photograph showing the hands and arms of several people sitting around a table, each holding and using a different type of electronic device, including a laptop, a tablet, and a smartphone.

Principles and Practice

- ▶ From Michelle Miller (2014)
Minds online : teaching
effectively with technology

PRINCIPLE:

Focusing on meaning, rather than superficial qualities, promotes memory as well as understanding

PRACTICE:

Discussion assignments that require leading and/or summarizing discussion threads

PRACTICE:

Online discussions
built around
experiences from
students' own lives

PRINCIPLE:

**Memory for new information
is powerfully shaped by what
we already know**

(WE FIT THINGS INTO OUR EXISTING FRAMEWORK)

PRACTICE:

Discussion prompts asking students to relate new information to old information

PRINCIPLE:

Discussions can be surprisingly powerful learning experiences when designed and managed the right way

PRACTICE:

- Discussions that start and end at set times
- Short, tightly focused discussions that unfold over two weeks or less
- Icebreaker or “getting to know you” discussion threads
- Give explicit civility guidelines

PRACTICE:

Frequent “lurking”
and as-needed
intervention by the
instructor to keep
threads on track
and civil

PRACTICE:

Grading rubrics for discussion posts

Criteria	Points
Posted one original thought	3
Cited source	2
Responded to two other students, deepening the discussion	5
Total	10

PRACTICE:

Discussions tied to structured activities such as problem-based learning or case studies

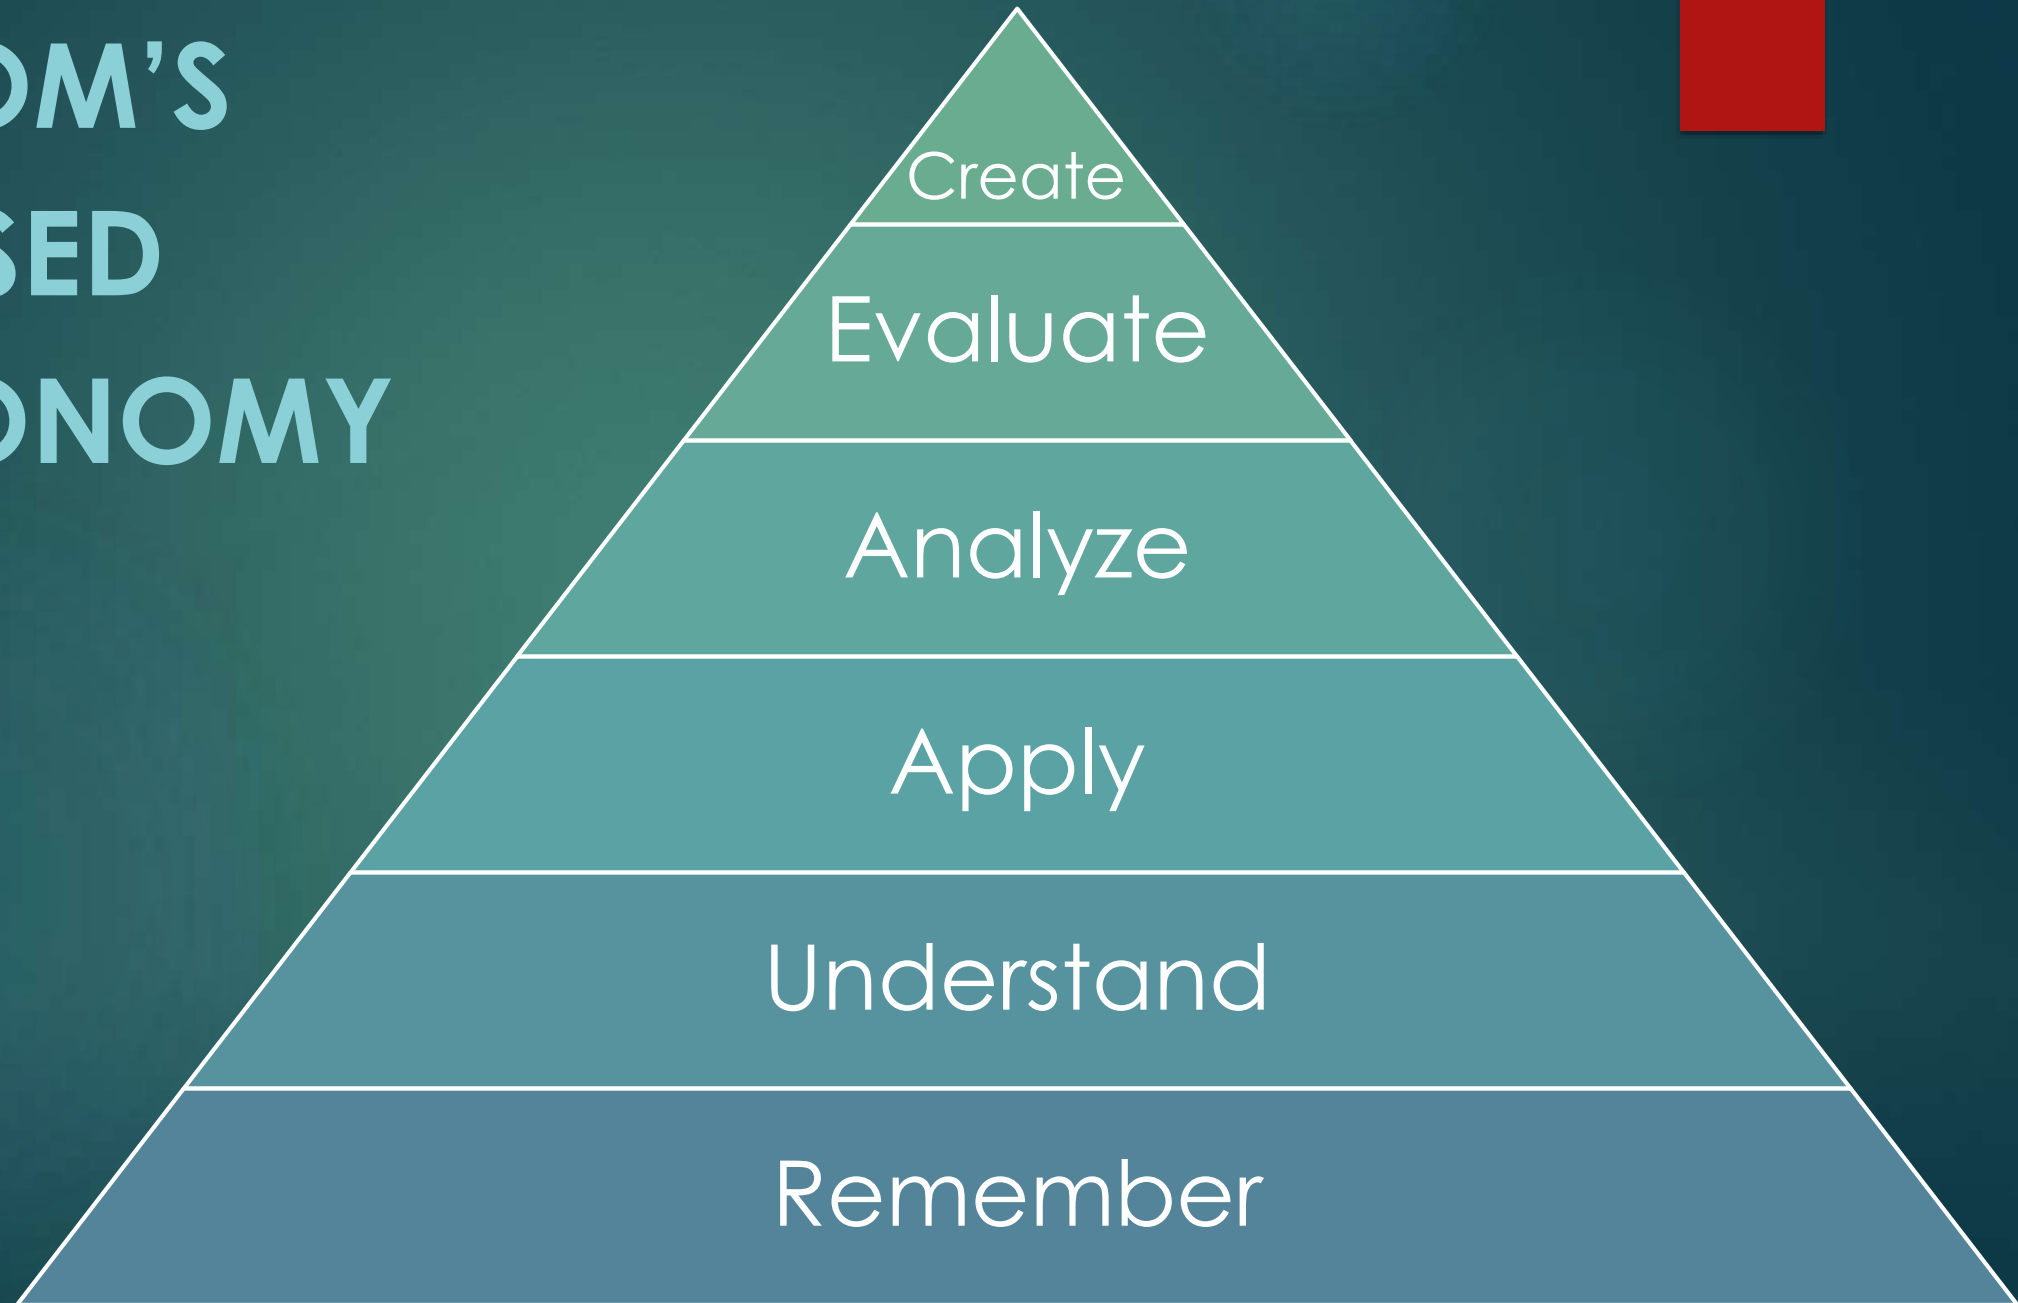

What would you do if...

PRINCIPLE:

**encouraging higher
order thinking**

BLOOM'S REVISED TAXONOMY

Bloom (1964)
Krathwohl (2002)

Critical thinking abilities are enhanced by encouraging students to comment on their peers' online discussion postings. They learn to challenge their assumptions and to provide a rationale for their responses.

(GILBERT & FLORES-ZAMBADA, 2011)

PRACTICE:

Problem
based
discussions

What would
you do if...

PRACTICE:

Guidelines that emphasize critical thinking and presentation of evidence

Criteria	Points
Posted one original thought	3
Cited source	2
Responded to two other students, deepening the discussion	5
Total	10

Online Discussions Work!

“ in-depth online discussions help students gain a new understanding of course-related subjects, emphasizing an increased motivation due to real time interaction and feedback, as well as increased interpersonal connections ”

(POWER & ST-JACQUES, 2014)

Now to practice the practice...

- ▶ Right now, create an example discussion post applying these principles and practices
