My Big Question

What is effective online program leadership in higher education?

Who

Leads Higher Education Online Programs?

Title / Position

What is this person called? Where are they in HE structure?

Skills / Background

Do these people tend to be of a particular skillset or background?

Activities / Actions

What are the main job activities of this person, administrative or otherwise?

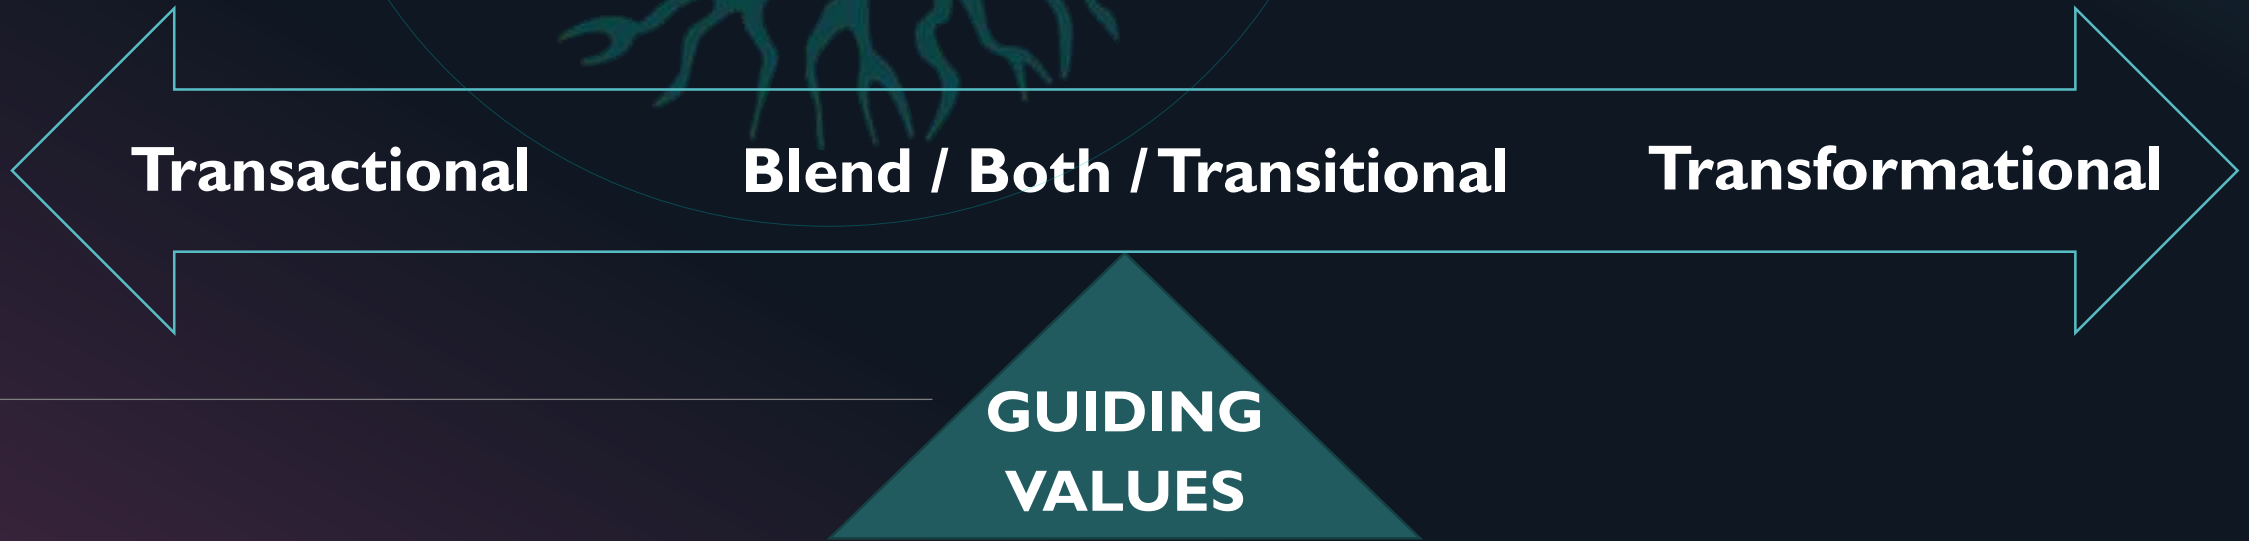

Success / Evaluation

How do we define successful online programs?

How

Do We Frame Online Learning Leadership?
